NOTES

- 1 This form has been designed on a "multi use" basis. You should choose the section or sections which reflect the arrangements on your particular park.
- 2 For example, toilet, shower and handbasin facilities may be specifically intended for long or short-term sections or, facilities may jointly serve both. Where ensembles serve individual sites or serviced sites are reserved only for units with their own individual facilities, those sites may be excluded when calculating communal facilities.
- 3 Laundry facilities are not specifically recognised for the "serviced site" concession explained in Note 2. Laundry facilities should therefore be calculated on the basis of all sites on the premises except where a concession based on special factors involved may have been granted.
- 4 Camp Sites: Calculations for facilities may be based on two camp sites equalling one site.
