CONDITIONS OF APPROVAL

Tick(√) box confirming you understand and agree

General:

- G1. The approved activity must be carried out in such ways at all times that it: (√)
- guarantees the PROTECTION AND PROMOTION OF PUBLIC HEALTH and PROTECTION OF THE ENVIRONMENT
 - does not adversely affect the SAFETY OF COUNCIL EMPLOYEES
 - SAFEGUARDS COUNCIL'S ASSETS at all times.
- G2. The approved activity must be carried out in a compliant way (at all times and in all respects) with all relevant standards, laws and requirements, and conditions as set out in the approval.
- G3. The approval holder is fully responsible for carrying out the approved activity and cannot devolve or reassign the approval to any other person or vehicle other than nominated on the approval. As such, the Approval Holder retains full responsibility for the activity despite any utilisation of employees, subcontractors, agents, representatives or others in the operation of same.
- It is the approval holder's responsibility to ensure compliance with all conditions of approval at all times irrespective of any pending inspections, assessments, reviews or revisions of approval to be carried out by Council in connection with the approval.
- G4. The approval holder must ensure currency of the information provided to Council in the Application and relevant information shown on the Approval. The approval holder must immediately advise Council of any changes relevant to the approval. The approval holder must not continue the approved activity until such time as Council has issued a modification of the approval following receipt of an application for the modification or Council has advised that the activity may continue without such an application / approval (Council determines that, in its opinion, the changes are minor).
- G5. Issue of a notice of approval constitutes a permit to carry out the activity or activities endorsed thereon.
- G6. The approval holder is responsible for renewal of a lapsed approval if so required.

Specific:

- S1: Unless otherwise authorised, water may only be drawn from Council's designated, automatic, water filling stations using a registered access card that is issued to the approval holder at the time of Council giving the Approval
- S2: Council does not guarantee the availability of supply water at all times and reserves the right to control and/or restrict and/or stop the usage of water in times of crisis or drought or where adverse effects on other consumers may occur. Alterations to approvals under these circumstances are entirely at the discretion of Council.
- S3: The approval holder will be inducted in the operation of the designated automatic filling stations as per Job Safety Analysis No. WS 93 " (copies of which are attached). The approval holder must have safe work statements and systems for the operation of the approval holder's plant and equipment.

- S4: The approval holder must ensure that the relevant water cartage forms are completed, that the details supplied remain current and that the cartage plant, apparatus, equipment and associated operational methods are at all times compliant with all relevant codes, standards and legislation (including OH&S). Evidence to this effect must be supplied if requested by Council and Council may conduct tests and inspections of confirmation at any time.
- S5: Vessels used on vehicles to cart water must have an aperture that is large enough to enable easy inspection of the interior and thorough cleaning of the interior and the cover of the aperture must be of a kind that is able to be kept thoroughly clean.
- S6: It is the responsibility of the approval holder to use safe work practices and to comply with all relevant laws and regulations including local laws. When working on or near roads the hirer will abide by all guidelines laid down in the current standards/codes relevant.
- S7: An approval holder approved to cart potable water that is intended, or has the potential to be used for human consumption must comply with the relevant sections of the Food Act 2003 and the Food Standards Code including the maintenance of equipment and transport vehicles in a fit-for-purpose, clean and sanitary condition, compliant labelling and the compliant handling of the drinking water.
- S8: The operation of water carting vehicles supplying water for drinking and/or domestic use must be carried out in accordance with the following requirements and other relevant legislative requirements prevailing at any time:
- Water tanks and hoses etc must comply with the specifications set out in the Safe Food Australia Guide to the Food Safety Standards 3.2.2, Division 5 – cleaning, sanitizing and maintenance (clauses 19 to 21).
 - Vehicles must be kept in a clean and sanitary condition.
 - Water must be chlorinated prior to carting to ensure the safety of the supply.
 - An adequate chlorine residual up to the point of supply to consumers must be maintained.
 - Water tanks must be used for the transport of potable water only and hoses/fittings must be used for transfer of potable water only.
 - Tanks constructed of high carbon alloy steel must be coated or lined with a material that complies with AS/NZS 4020:1999 (Products for use in contact with drinking water).
 - The vehicle, tank and apparatus must be submitted once every twelve months for inspection by Council.
 - Hoses must be made of food grade material.
 - Hoses and fittings must be capped or stored in a dust proof container during transport or when not being used.

- **A log book must be kept in each vehicle to record details of deliveries including all dates of extraction and delivery, source of water, location of extraction, customer's name and delivery address, volume delivered, when the tank was last cleaned, free chlorine level, etc.**

- S9: The registered, numbered access card is not transferable can only be used by the approval holder and must be returned to Council following expiry of the Approval.
- S10: The approval holder accepts responsibility for any damage or loss to the access card including replacement costs as per Council's prevailing "fees and charges".
- S11: The approval holder will be held responsible for the costs of rectification of any damage occasioned to Council's approval-related infrastructure as a result of wilful or neglectful actions by the approval holder or agents of the approval holder.
- S12: The (per kilolitre) supply of water will be charged as per Council's prevailing "fees and charges".
- S13: An access card can only be used to fill the vehicles/tanks detailed in the application form to which the access card relates.
- S14: Separate applications and approvals are required for each access card.
- S15: The maximum allowable pre-paid credit on any access card is \$1,000.
- S16: Requests for refund of credits on cards that cannot be presented to Council in a readable form will not be processed.
- S17: Hire charges are not refundable.
- S18: For the purpose of the agreement one full month equates to 30 days.
- S19: Hoses and fittings to connect with the filling stations (65 mm Storz) are not supplied with the access card.
- S20: Any fill station that fails to seal or any other malfunction must be immediately reported to Council (phone 6566 3200).
- S21: Accessing Council's water supply in an unauthorised manner is illegal. Violation of any condition of approval may result in legal action and/or cancellation of the permit to draw and/or sell potable water from Council mains.
