Venetian blind cleaning	Nil (see Note 2).	

Notes:

1. Where "required" is used it means as required by Council.
2. If activity is conducted outdoors, the work area is to be roofed and bunded to prevent stormwater ingress into the sewerage system
3. All drainage from sinks and floors in food preparation areas is required to pass through a dry basket arrestor
4. Food preparation activities need to comply with sound house keeping practices including:
 - (a) Floor must be dry swept before washing.
 - (b) Pre-wiping of all utensils, plates, bowls etc to the scrape bin before washing up.
 - (c) Use of a food waste disposal unit is not permitted.

There is a yearly inspection that will have a fee associated with it. This inspection is to ensure the business is still operating at a level that does not require an approval and that it is following the requirements for the business type.

Please note that the owner of the property will be billed for water supply, sewerage and liquid trade waste services provided and it is the owner's responsibility to pay such fees and charges within the period specified. The owner may arrange to recover such fees and charges through the lease arrangement between the owner and the occupier.

SUBSTANCES PROHIBITED FROM BEING DISCHARGED TO THE SEWERAGE SYSTEM

Pursuant to the Local Government (General) Regulations 2005 any discharge into the sewer (except for domestic waste) needs to be approved. The following substances are prohibited from being discharged into sewers or drains::

- (a) Animal matter (including carcasses but not including human waste), wool, hair, grease, dust, ashes, cinders, soil, rubbish, filth, oil, salt, mud, sand, gravel, garbage, offal, vegetable or fruit parings, rags, house refuse, steam or solid matter;***
- (b) Any flammable or explosive substance;***
- (c) Waste liquid that contains a percentage of any substance, or waste liquid that is of a temperature, specified by Council as being:***
 - (i) Likely to endanger public health, public safety or public amenity or the environment, or***
 - (ii) Damaging to, or liable to form compounds that may damage Macleay water's sewerage system or treatment works, or***
 - (iii) Likely to injure employees engaged in the operation or maintenance of Council's sewerage system or treatment works or the health of those employees;***
- (d) Except in the case of a public drain or a Council gutter – roof, rain, surface, flood, and seepage or subsoil water.***

In addition to those mentioned above, the following substances are not permitted to be discharged into the sewerage system:

- Organochlorine weedicides, fungicides, pesticides, herbicides and substances of similar nature and/or wastes arising from the preparation of these substances;
- Organophosphate pesticides and/or wastes arising from the preparation of these substances;
- Any substances liable to produce noxious or poisonous vapours in the sewerage system;
- Organic solvents and mineral oils;
- Discharges from 'Bulk Fuel Depots';
- Natural or synthetic resins, plastic monomers, synthetic adhesives and rubber plastic emulsions;
- Chromate from cooling towers; and
- Waste liquids that contain pollutants at concentrations, which inhibit the sewage treatment processes – Guidelines for Sewerage Systems: Acceptance of Trade Waste (Industrial Waste) (ARMCANZ/ANZECC, 1994).
