

SORT TO SAVE

Proper sorting of mixed loads that enable better resource recovery can, at the discretion of gate staff, result in a nominal discount. The discount is based upon the amount of materials sorted for resource recovery compared to the total amount of material being brought in.

GENERAL LOADS

Mixed Waste -Sorted (including commercial)	Per tonne	\$ 286
Mixed Waste -Unsorted (including commercial)	Per tonne	\$ 420
Green Waste	Per tonne	\$ 104
Green Waste Oversized - Stumps	Per Tonne	\$ 116

Scrap Metal (including white goods)	Textiles
Printer cartridges	Polystyrene
Re-usable items (subject to Weighbridge Staff approval)	Smoke alarms
	Batteries (car/household)

WASTE DEFINITIONS

Mixed Waste: Material that in its final form at the point of disposal is unsorted, unseparated or contains material that necessitates disposal into the landfill.

Construction and Demolition Waste: Any waste sourced from the construction, remodelling or repair of individual residences, buildings and other structures that cannot be recycled on the site.

Commercial and Industrial: Any waste, either organic or inorganic, whose source is from commercial or profitable business sites.

Inert Building Waste: Concrete, bricks or stone over 150mm in any dimension capable of becoming a clean crushed aggregate resource.

Green Waste: Lawn clippings, garden waste, tree lopping's, plant material and untreated timber (but excluding stumps over 400mm in diameter, lantana and noxious weeds which will be charged at mixed rate)

Metal: Ferrous and non-ferrous scrap metal

Clean Fill: Clay, topsoil or gravel

Special Burial: Documents or other material needing immediate covering.

Recyclables: Includes clean paper/cardboard and empty containers (metal/plastic/glass)

Putrescible Waste: Waste that will decompose rapidly.

The NSW Waste Levy means it costs \$97.90 extra per tonne to landfill. To save money we must 'Recycle More'
