## Applicant's acknowledgement/declaration

I confirm that the Funeral Director has provided me with information about relevant basic product (basic adult burial, basic ash interment, or basic cremation) their price breakdown and the goods and services included in the price.

I confirm that they have explained the terms and conditions of the burial contract with me.

I confirm that the Funeral Director has given me reasonable time and privacy to read these materials and ask questions about them and about the terms of this agreement.

I certify that I am the relative, as specified above, of the said deceased and I am duly empowered to authorise the opening of the said grave and that the said body should be rightly interred in the grave of the said deceased. I, the undersigned, DO **HEREBY INDEMNIFY** and hold safe and harmless the said Council against all actions, proceedings, claims, demands, damages, costs, losses, and expenses whatsoever which may be made or instituted against or suffered by the said Council in any manner whatsoever by reason the said Council having consented to open such grave and the interment therein of the body of the abovementioned deceased.

I acknowledge that the Funeral Director has provided me with a copy of Kempsey Shire Council's Cemetery Guidelines and agree to comply with the Council's regulations regarding what is permissible and what is prohibited regarding items that can be placed on the deceased's resting place. The Funeral Director is authorised by us to act for us, and they are doing so with our authority.

I further acknowledge that The funeral director has advised me that should the scheduled burial be potentially impacted by unfavourable weather on the day of the scheduled funeral, the funeral director's wet weather contingency may be implemented and I acknowledge and understand the potential impacts of this advice.

I also acknowledge that in relation to the future erection of a monument, I agree to seek and gain all necessary approvals and pay the associated costs involved in erecting a monument to the deceased. All memorials must be of a design and material approved by Kempsey Shire Council and cannot be erected without the Council's prior written consent.

I, the undersigned, being the person responsible for the funeral arrangements, DO **HEREBY REQUEST** Kempsey Shire Council to allow the said grave to be opened and the body of the deceased interred.
